- 3. Alpha- \$20.00 a month**
 - Unlimited Talk/Text, 5 GB of Data

OBJECTIVES

Veteran homelessness remains a significant issue in the United States, affecting thousands of individuals who have served our country. Although a wide range of support services and resources are available to assist our veterans, there are continuous obstacles hindering their communication and ability to find them.

SOLUTIONS

AFNET has created a program specifically for homeless veterans. Now, veterans will be able to schedule appointments, contact the VA, seek employment, etc.

Our plans are designed to be efficient and affordable. In select cases of no income, we will provide phones and service at no cost; however, this offer is available only for limited periods and under specific circumstances.

REQUIREMENTS

Referral

In cases of a homeless veteran, please provide the contact of a representative, caseworker or organization working with you.

Proof of Veteran Status

You must provide a DD214, veteran's license, etc. If you do not have one, please have your representative contact us.
