

Veteran Phone Program

A Solution for Our Heroes

Phones and phone service are required in almost everything we do in today's society whether that's work, entertainment, resources, connection, etc. Our veterans deserve to have access to contacts and programs that will provide them with the solutions that they need. We will be efficient, dedicated and committed to every single request that comes to our business because we treat every veteran like a member of our family.

Select phones are free with the purchase of one of our phone plans, starting as low as \$8 a month.

In certain circumstances, we will do our best to provide a free phone if a veteran has no income.

If you want to upgrade your phone, we have iPhones, Samsung phones and more available at much lower costs.

If you already have an unlocked device, we can easily switch you over to our service and port your number upon request.
